Self-contained judgment evaluation training system

Fully upgradeable

TRAINING ON YOUR TERMS

PRISim™ PortableTrainer™ is a self-contained, cost-effective judgment evaluation and force option training system. By design, it creates a safe, effective and realistic learning environment for law enforcement, military and security professionals.

This complete training system is ready to go, right out of the box. It's easily transportable and can be set up in 5 minutes in virtually any interior room with controlled lighting. Use your standard issue firearm to maximize your training realism. With PRISim PortableTrainer, training scenarios and learning objectives are presented consistently for each and every trainee.

PRISim PortableTrainer comes standard with over a 100 pre-installed branching scenarios. You can even expand your system with additional training tools and professionally branching scenarios from our extensive library.

PRISim PortableTrainer

KEY FEATURES

- High performance training system at a cost effective price
- Use any double action handgun or Glock with available trigger group
- Supports chemical spray and flashlight laser devices
- Easily expands to support premium branching content and additional PRISim tools
- Training scenarios and learning objectives are presented consistently for every trainee
- Reduces travel costs when shared between multiple training sites
- Turns virtually any interior room with controlled lighting into an effective training environment
